## Introduction

The Online Portal consolidates the Online Job Entry system and POD's online providing one place on the internet where you may enter consignments, view Track and Trace information and view and email electronic and traditional PODs.

The PODs online option shows both POD documents that have been scanned, and document facsimiles with signatures received from Vigo in-cab systems.

Two services are available as options, providing further status information about each job:

1. Track & Trace details e.g. Arrived at hub/Departed hub/delivered etc, as captured by barcode scanners
2. Data transmitted back from Vigo In-cab systems showing e.g. Arrival and departure times

The Online Portal is a web browser based system which you can access via the website address provided to you by your Haulier.

# Chapter 1 – System Navigation

## 1.0 – Registering To Use the Online Portal

In order to access the Online Portal you will need to be provided with login details by your Haulier or Supplier. These may be sent you directly or you may be asked to complete a registration process.

To complete the automated registration process your Haulier will need to have entered your details onto the Online Portal. You will then receive an email similar to the one shown in Figure 1.0.1

Click on the link in the email to be taken to the registration screen.

You will be asked to enter the username and password that you would like to use to access the Online Portal.

## 1.1 – The Login Screen

You will have been provided with a website address required to access the Online Portal. Navigating to this address in your internet browser will display the Online Portal Login screen as shown in Figure 1.1.1 below.

Online Job Portal Version 3.5, © 2005-2009 [Vigo Software Ltd.](#)

Figure 1.1.1

Enter the username and password you have chosen and choose 'Submit' to proceed. Logging in successfully will take you to the Main Menu (See section 1.2 – The Main Menu).

An error has prevented your login.  
The server returned this message:  
*Invalid username or password. Please try again.*

Figure 1.1.2

If the details you have entered are not recognised or are incorrect you will be notified by an on screen message as shown in Figure 1.1.2.

## 1.2 – The Main Menu

When you log in to the Online Portal you will be taken to the Main Menu as shown in Figure 1.2.1.

Figure 1.2.1

There are five options you may choose from:

1. View Jobs – This allows you to view all jobs you have entered on to the Online Portal.
2. Print Documents – This provides you with the ability to print any documents that the Haulier may have set up for you, for example, consignment notes, labels or a Manifest.
3. Track & Trace - From here you are able to view track and trace statuses against jobs you have requested the Haulier/supplier to perform. You are also able to view, print and email POD images via this menu option.
4. Enter Jobs – This option takes you to the job entry screen where you are able to enter consignments.
5. Addresses - This options provides you with the ability to set up regular collection and delivery addresses that you can recall when entering consignments. You are also able to set up default services, surcharges and units against addresses.

# Chapter 2 – Job Entry

## 2.1 - Entering Jobs

To enter a consignment you need to choose the 'Enter Jobs' option from the Main Menu. You will then be taken to the Job Entry screen.

The job entry screen is made up of five sections which will be covered individually in this document, these are -

1. Reference Details
2. Collection Details
3. Delivery Details
4. Item Details
5. Manifest Notes.

## 2.2 - Reference Details

Figure 2.2.1 shows the Reference Details section of the Job Entry screen. You are able to enter a consignment number and up to two customer references to help you identify the job easily.

<b>Reference Details</b>	
Consignment Number:	<input type="text" value="TEST001"/>
Customer Reference 1:	<input type="text" value="B6HH2009"/>
Customer Reference 2:	<input type="text"/>

Figure 2.2.1

NB. Consignment number is a required field. This means it must be populated in order to successfully save the job. If your Haulier has set you up to have a facility called 'Auto Consignment Number Generation' you will not be able to see this field and it will be automatically populated for you.

## 2.3 - Collection Details

**Collect From Me**

Account Code/Name:

Company Name:

Property, Road:

Town:

County:   ▾

Postcode:

Date:

Figure 2.3.1

Figure 2.3.1 shows the Collection Details section of the Job Entry screen.

The collection details will be automatically be populated with your address when you load the job entry screen.

If you wish to change the collection location you are will need to un-tick the 'Collect From Me' box. This will empty out the collection details for you so you can add the new address details in.

Checking the 'Collect From Me' box again will replace any details you enter with your own address.

If you have any regular addresses saved in the system (see Chapter 5 – Addresses) you are able to recall them via the job entry screen. Instructions on how to use your saved address and the address search facility are shown at the top of the job entry screen (see Figure 2.3.2).

**Address Search Instructions**

- Enter the account code or the account name to find one of your already saved addresses.
- Enter the first part or all of a postcode to search by postcode (leaving the other fields blank).
- Enter part of one or more address fields for a general search, do not abbreviate Road to Rd.

Figure 2.3.2

## 2.4 - Delivery Details

Figure 2.4.1 shows the Delivery Details section of the Job Entry screen. You are able to recall saved addresses to populate this information or enter a new address.

**Deliver To**

Account Code/Name:

Company Name:

Property, Road:

Town:

County:  UK

Postcode:

Further instructions on how to use the address search facility are provided at the top of the job entry screen (Figure 2.3.2)

## 2.5 - Item Details

Figure 2.5.1 shows the Item Details section of the Job Entry screen. The item types, surcharges and services available to choose from will have been set up by your Haulier and may differ slightly from those shown in the example.

**Details**

Units: P - Pallets  
Service: ND - Next Day

Figure 2.5.1

This section of the Job Entry screen allows you to provide the Haulier with details of the load you wish them to collect or deliver.

You are able to choose extra Surcharge options, e.g. AM Delivery, specify the type of units on the consignment, e.g. Pallets, and the service you wish to be applied to the consignment.

You are also able to add default Services, Surcharges and Unit Types against saved addresses (see Chapter 5 – Addresses) which will automatically populate when recalling an address in the Job Entry screen.

## 2.6 - Manifest Notes

Figure 2.6.1 shows the Manifest Notes section of the Job Entry screen. Manifest Notes can be used to supply the Haulier with further information about the consignment.

The Haulier has the option to set up default Manifest Notes descriptions for you. In the example below the customer has been set up so that the first line of Manifest Notes is reserved from the Contact Number.

**Manifest Notes**

Contact Number:   
  
  
Default Notes

Figure 2.6.1

Some of the Manifest Notes lines may be read only and you will not be able to change them. This is based on the settings the Haulier has added against your user login.

You are also able to add default Manifest Notes in against your saved addresses (see Chapter 5 – Addresses) which will automatically populate when recalling an address in the Job Entry screen.

## 2.7 – Saving a Consignment

Once you have entered all of the required information you are able to choose either 'Save' or 'Save & Print' from the bottom of the consignment screen.

If the consignment was successfully saved you will be notified in the top right hand corner of the screen as shown in Figure 2.7.1.

**Job Entry Successful**  
Consignment Number: TEST001  
Number of Items: 2

Figure 2.7.1

If there were any errors when saving the consignment, for example there are no items entered, you will be notified by an error in the top right hand corner of the screen (Figure 2.7.2).

**Job Entry Failed**  
There were 2 errors.

Figure 2.7.2

Further details of any problems will be shown in the bottom right of the consignment screen and the fields that need changing will be highlighted in red as shown in Figure 2.7.3 below.

**Details**

# Chapter 3 - Viewing Jobs

## 3.1 - The View Jobs Screen

Choosing 'View Jobs' from the Main Menu will take you to the view jobs screen which allows you to view all jobs that have been entered in to the system.

Figure 3.1.1 shows an example of the View Jobs grid. You can click on the consignment number to display or edit the full details of the job in the Job Edit screen.

Figure 3.1.2

You are able to view older jobs by changing the 'Show only...' option at the bottom of the screen to 'Old'. You may also search within these jobs by altering the selection criteria at the bottom of the screen.

Clicking on any of the column headers will order the grid by the values in that column.

When you perform a search the grid will be filtered so it only displays results that fall within your criteria. You can clear any filters you have applied by choosing 'Reset Grid' from the bottom right of the screen.

Each consignment is given a colour based on its current status:

- Green – The consignment has been accepted by the Haulier
- Red – The consignment has been declined by the Haulier
- Yellow – The consignment has been modified since being accepted by the Haulier
- Turquoise – The consignment has been modified since being declined by the Haulier.

A purple row on the grid indicates that the job is a collection.

Hovering your mouse over the 'Con No' column will show you the current status of the consignment in 'Status Display' at the bottom right of the screen (as shown in Figure 3.1.3).

Figure 3.1.3

If a consignment has been declined by the Haulier the 'Status Display' will show information about why the job was declined as shown in Figure 3.1.4.

# Chapter 4 – Printing Documents

## 4.1. How to Print a Document

To print a document, for example a Consignment Note, Label or Manifest, you will need to choose 'Print Documents' from the Main Menu. The documents you are able to print are pre determined by your Haulier.

Figure 4.1.1 shows the Print Document grid. Clicking on any of the column headers will order the grid by the values in that column.

By default the Print Documents grid will show you the 500 most recent jobs that have not yet been printed.

You can search within the displayed jobs by changing the selection criteria at the bottom of the screen as shown in Figure 4.1.2

Figure 4.1.2

You can search by a number of fields including Consignment Number and Entry Date. You may also limit your search to a particular unit type.

When you perform a search the grid will be filtered so it only displays results that fall within your criteria. You can clear any filters you have applied by choosing 'Reset Grid' from the bottom right of the screen.

You are able to view jobs that have already been printed by changing the 'Show Only' option at the bottom of the screen to 'Printed' or 'All'.

Once you have located the job you wish to print, select it by ticking the corresponding check box, choose the document type you require from the drop down box (Figure 4.1.3) and click 'Accept' to load the printing window.

To hide the Track & Trace statuses click the  icon in the 'Latest' column which will have replaced the  icon.

You are able to search for consignments based on a combination of Date and a particular field by changing the search criteria at the top of the screen.

There is a choice of 'operators' that you may use to search for jobs. If, for example, you wished to search for all consignments with a Delivery Date of 27/05/2009 you would set the Date Filter to 'Delivery Date', the Operator to 'Equals' and then select the 27<sup>th</sup> of May from the Calendar tool. You would leave the Field Filter Operator set as 'None'. Please see Figure 5.1.4 for an image of this example

Total jobs found: 2.

Figure 5.1.4

To search for a particular consignment number, for example 0111403, you would use the Field Filter and set the 'Operator' to 'Equals' and populate the box that appears with '0111403' as shown in Figure 5.1.5. As you can see this will grey out the Date Filter boxes as you don't need to add a date range when searching in this way.

# Chapter 6 – Addresses

## 6.1. Adding / Viewing Regular Addresses

Choosing 'Addresses' from the Main Menu allows you to set up and view regular addresses for use during Job Entry.

Existing addresses will be shown on the right-hand side of the screen (Figure 6.1.1). To view an existing address locate the entry you require and click on the row in the grid, this will populate the address details on the left of the screen.

Code	Name	Del.

To enter a new address choose 'Add' from the bottom of the screen.

The screen is split up into 3 sections:

- Address Details
- Contact Details
- Defaults

Figure 6.1.2 shows the Address Details section. You are required to enter a code and a name which you can use to recall the address on the Job Entry screen. You may search for an address based on Postcode or any other address details by entering as much information as you have available and clicking the 'Addr Search' button.
